Asset Allocation: The Growth Trust currently gains exposure to the various asset classes and investment sectors by investing in the QIC Long Term Diversified Fund and, may in the future, invest in the QIC Diversified Australian Equities Fund (QIC Funds). ¹ The Growth Trust gains investment exposure to the above asset classes by investing in the QIC Funds and cash. These ranges are determined by QIC and can and do change from time to time.

² The QIC Funds' exposure to the asset class may be by direct or indirect ownership of the asset or exposure to the asset via derivative instruments.

³ May include investments in real assets such as Timber, Commodities, and Natural Resources.

⁴ Global fixed interest and credit exposures can be reported at various interest rate and credit spread durations respectively which will directly determine the volatility experienced. For example, if the interest rate duration target is 10 years, a 2% notional exposure to a fixed interest security with a duration of 8 years is reported as a 1.6% exposure. Similarly if the credit spread duration target is 5 years, a 2% notional exposure to credit with a duration of 3 years is reported as a 1.2% exposure. The QIC Long Term Diversified Fund defines and reports its fixed interest exposure in terms of 10-year interest rate duration and its credit exposure in terms of a 5-year credit spread duration. The QIC Long Term Diversified Fund may also contain inflation exposures, which may be implemented via either physical and/or synthetic instruments.

¹ Suggested minimum investment time frame. The PTQ recommends that investors seek their own professional advice.

Annual Management Cost ³	
Trustee Fee ¹	1.14% p.a.
QIC Fund Expenses ²	0.20 - 0.40% p.a.
Management Cost	1.34 - 1.54% p.a.

¹ The Trustee Fee is payable to us for acting as trustee and managing the Growth Trust. The Trustee Fee is calculated daily based on the net asset value of the Growth Trust, and is deducted from the Growth Trust's assets monthly in arrears, thereby reducing your investment returns. In comparison, the underlying QIC Funds' Expenses are deducted from the assets of the applicable underlying QIC Fund, thereby reducing the investment returns of that fund.

² The amounts shown are estimates only of the QIC Funds' Expenses. The estimate is not necessarily indicative of future expenses.

³ The fees and costs are inclusive of GST and less any expected reduced input tax credits.

Key Features

- Transacts usually Tuesday and Thursday of each week.
